ANNOUNCEMENT

SUBJECT: Spinoff 2003

The innovations and technology breakthroughs that come from the space program continue to support our mission as well as enhance the lives of our citizens. Every day, the Nation's investment in NASA technologies is seen in such fields as agriculture, communications, manufacturing, medical devices, and much more. Spinoff magazine captures NASA's extensive efforts to promote the transfer of technology.

We are pleased to announce that Spinoff 2003 is now available. This year's edition of NASA's annual publication on technology transfer successes is focused on commemorating the centennial of flight.

If you would like to receive a copy of Spinoff 2003, please email your request to Victor Rodriguez at vrodrig@pop500.gsfc.nasa.gov.

Nona Cheeks
Chief, Office of Technology Transfer
